## Education

---

**The Pennsylvania State University, University Park, PA**

**May 2027**

Bachelor of Science in Computer Science and Mathematics

GPA: 3.57/4.00

Dean's List (1/6 semesters)

Military Leave: March 2023 – September 2024

Relevant Coursework: Programming and Computation, Data Structures, Object-Oriented Programming with Web-Based Applications, System Programming, Data Structure and Algorithm, Dynamic Programming, Programming Language, Design Circuit, Linear Algebra, Number Theory, Linear Programming

## Work Experience

---

**NHN, Pangyo, Korea**

**Jul 2026 – Aug 2026**

*Software Engineer Intern - Game Platform Server Team*

- Leveraged AI development tools to architect log tracking data structures and build metric aggregation logic using Java, Spring, MySQL, and Redis.
- Defined cohorts and segments for Gamebase, NHN's game platform payment service, to support group-level metric analysis.

**Lunexio, Gasan, Korea**

**May 2026 – July**

*Software and AI Engineer Intern*

- Built a full-stack document management platform to generate, version, and route approvals for Korean corporate documents.
- Designed a rule-based Excel field-extraction engine for semi-structured Korean corporate forms.

**Kim & Chang Law Firm, Jong-no, Korea**

**Oct 2024 – Dec 2024**

*AI Research and IT Assistant Intern*

- Conducted AI research and facilitated IT knowledge transfer, bridging technical gaps for non-technical staff.

## Projects

---

**Game Platform, University Park, PA**

**Jul 2026 – Present**

*Project Developer*

- Architected a multi-tenant game platform (Node.js, Express, PostgreSQL, Prisma) with org-scoped access control and Bearer-authenticated REST APIs.
- Built a Library/Store/Profile system with purchase-gated access and a game detail experience modeled after modern app storefronts.

**Interactive Mandal-Art Planner, University Park, PA**

**May 2026 – June 2026**

*Project Developer*

- Built a full-stack productivity web app with a 9x9 Mandal-art goal chart, point-based rewards, and a to-do list with carry-over detection.
- Implemented authentication and a relational schema to support multi-feature personal productivity tracking.

**Studio OS, University Park, PA**

**Jan 2026 - June 2026**

*Project Developer*

- Designed and developed an internal company management platform for organizing projects, resources, and team workflows.
- Implemented authentication systems and structured project management features to support scalable collaboration.

## Skills and Certificate

---

**Programming:** C, C++, Python, Java, TypeScript, React, Linux, Word, Power Point, Excel

**Languages:** Fluent in Korean and English, basic Japanese

**Certificate:** SQL Developer, certified by Korean Government
